Welcome to Dynamic Data Mindset's GitHub Portfolio 🚀

About Me

Hello! I'm **Boniface Ramushu**, a passionate **Data Scientist & Analytics Consultant** with expertise in **machine learning, data visualization, and business intelligence**. I help businesses unlock insights from data to drive better decision-making. This GitHub serves as my portfolio, showcasing projects that demonstrate my skills in data science and analytics.

🔍 **What You'll Find Here**

- **End-to-End Data Science Projects** – From data cleaning to model deployment.

- **Machine Learning Models** – Implementations of predictive analytics, NLP, and deep learning.

- **Data Visualization Dashboards** – Power BI, Tableau, and Python-based visualizations.

- **Exploratory Data Analysis (EDA)** – Data cleaning, feature engineering, and insights generation.

- **Automation & Data Pipelines** – Using Python, SQL, and cloud platforms.

🛠️ **Tech Stack & Tools**

- **Programming Languages**: Python, SQL, R

- **Machine Learning Frameworks**: scikit-learn, TensorFlow, PyTorch

- **Data Visualization**: Matplotlib, Seaborn, Power BI, Tableau

- **Big Data & Cloud**: AWS, Google Cloud, Azure

- **Databases**: MySQL, PostgreSQL, MongoDB

📬 **Connect with Me**

- **LinkedIn**: www.linkedin.com/in/b-ramushu

- **Email**: dynamicdatamindset@gmail.com

📌 *Feel free to explore, fork, and contribute! Let's collaborate and push the boundaries of data science together.* 🚀
